

**UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF FLORIDA**

CASE NO. 23-cv-20727-ALTMAN

RYAN BRESLOW, *et al.*,

Plaintiffs,

v.

MARK PHILLIPS, *et al.*,

Defendants.

_____ /

DECLARATION OF JON GORDON

I, Jon Gordon, make the following declaration based on my personal knowledge:

1. My name is Jon Gordon. I am over the age of 18, competent to testify, and have personal knowledge of the matters stated herein.
2. I am a resident of Austin, Texas.
3. In 2021, Ryan Breslow, Alex Fine, and myself are the founders of a new cryptocurrency platform called the Movement DAO (“DAO” or “Movement DAO”).
4. As part of my role in the Movement DAO project, I was responsible for approving payments to the developers assisting with the project until August 2022. When a developer was owed payment, I would receive an invoice for their work. Attached as Exhibits A and B are true and accurate excerpts of emails sent to my email address attaching invoices for

services provided by developers that I approved in connection with the Movement DAO project, as well as the invoices themselves.

5. Prior to February 2023, when the Defendants seized control of the Movement DAO project from Mr. Breslow, Mr. Fine, and myself, the project had never authorized advanced payments to developers.

6. I have obtained an estimate from Galaxy Digital, a cryptocurrency exchange, to determine the approximate cost of converting the cryptocurrency in the DAO endowment to U.S. dollars. That transaction would cost less than \$35,000.

7. Attached as Exhibit C is a true and accurate copy of a screenshot of a text message that Defendant Mark Phillips sent to me on March 13, 2022.

8. Attached as Exhibit D is a true and accurate copy of a screenshot of a text message that Defendant Mark Phillips sent to me on August 9, 2022.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed on this 20 day of March 2023.

You

Thanks for all you do. I feel so much better about this project now thanks to...

You give the air cover so its totally cool, and I can't help it. This is why I stay at the engineering level or hid in a law firm, I can't help look at acquisitions and joint ventures, and strategic sh*t, its fun with lots of money and resources and vision. But I like just executing on Ryan and your behalf, its gets too personal when I care (can you imagine me caring more about a project?). I appreciate all that you do too, from trust, to not punching me for returning your without filling the gas - I honestly forgot, I can't keep anything in my head anymore except work stuff and even that is hard when I am so tired.

if i have treated anyone like stupid idiots, this is wrong. and I am sorry, i was speaking to you privately about the inconsistency of his governance proposal, lack of proposals, board minutes, or understanding after multiple discussions of the seriousness of duties specifically fiduciary something that i take very very very seriously. i understand what it means to scale and am aware of the challenges. its difficult to gain trust when we have multiple layers of what we can disclose, which is why i don't like ambiguity for which the legal structure should help with, something that the larger community has no insight into, i'll change that with a follow up governance proposal.

i believe we can build a community with good people with the right motives, it's difficult for me to think about this with the legal structure to honor Ryan's wishes, not be offensive to the government, and implement the product that has been conveyed to me.
